# WRITING
Did you know this T8 function yet?

What?
The Writing tool of the T8 control unit can be used to generate simple single-line, multi-line and circular monograms. There are several font families with a variety of fonts in various sizes available, as well as options for arranging a lettering. The generated monograms are stored in the memory.

Why?
The function provides the possibility to easily create simple monograms on the machine. For a wider range of features, we recommend using ZSK software solutions.
